SUMMARY — Physics undergraduate interested in electronics, nuclear physics, and semiconductor physics. Experienced in product development, graphic design, programming.

SKILLS

Electronics LTspice, PSpice, DipTrace, Soldering	Programming C++, Astropy, HTML, CSS, LaTeX
Design Design thinking, Color theory, Canva, Adobe Photoshop	Education Child psychology and development, Teaching skill, Team management

EXPERIENCE

Summer Intern <i>Department of Instrumentation and USIC, Gauhati University, Guwahati</i> - Awarded Best Performer of the Batch with consolidated marks of 95% on continuous evaluation - Worked on circuit design, PCB fabrication, soldering, testing - Worked with software tools DipTrace, FreeCAD and LabVIEW - Familiarized with sophisticated instruments as XRD, XRF, TGA, DSC, SEM, and AFM	Jun 2025 – Jul 2025
Magazine Graphics Designer <i>Annual Science Magazine, Tezpur University</i> - Designed 60% glossy pages, 80% the section dividers - Designed 2 posters for publication - Software tools used- Photoshop, Gimp and Canva	Dec 2024 – Feb 2025

EDUCATION

Tezpur University <i>Integrated B.Sc. B.Ed. in Physics, 6th Sem</i>	SGPA: 8.17 CGPA: 7.14 <i>Aug. 2023 – Present</i>
CUET(UG) Physics <i>Entrance exam by NTA</i>	99.4447 percentile 2023
Anundoram Borooah Academy <i>XII (Science, AHSEC)</i>	81.6% 2023
Garhali Bholanath High School <i>X (SEBA)</i>	90.5% 2021

PROJECTS

Smart Home Automation - Developed a basic Home Automation system using ESP32 - Controlled electrical appliances via IR, IoT, and Bluetooth - Working at the documentation of the project	Jan 2026 – Present
Torch light extended to Study Lamp Developed a Stand to hold Torchlight- now serving as a lamp	Apr 2024 – May 2024
Design Thinking case-study on ORAL-B toothbrush Tezpur University Learned the importance of design thinking, ideation, research, post-launch feedback surveys	Oct 2023 – Dec 2023
Developed Automatic Spinning Wheel Class 9 project - Developed a working model of automatic spinning wheel and run a trial in native village - Reduced production time of weaving in village area by 3% and manual work by 5% - Reduced effective cost of spinning wheel with lower manufacturing cost - Product helped 60% people in the weaving process according to a survey conducted in local area	2019

HOBBIES

- Coding: Front-end, Arduino
- Journaling
- Portrait drawing
- Photography

LANGUAGES

- Assamese (native or bilingual proficiency)
- English (working proficiency)
- Hindi (working proficiency)
